Skills

NextJS, AstroJS, TailwindCSS, Python, Flask,   Docker, Github Actions, AWS

Professional Experience

Wilmington, Delaware, United States (Remote)	**Cloud & Dev, Hyperce LLC** • Helping build & deploy robust eCom solutions with Vendure, PostgreSQL, NextJS, & AWS (EC2, ECS, RDS, Route 53, S3) • Building the main website for the company focusing on modern designs with NextJS and Tailwind. (Working on Strapi for the website).
Kathmandu, Nepal (Onsite)	**Frontend, Nest Nepal** 🔗 • Revamped and redesigned most of the website with Astro + Tailwind components for the main website. • Automated deployments with Github Actions, reducing manual tasks. (FTP)
Kathmandu, Nepal	**Servers Intern, Nest Nepal** 🔗 • Worked on WHMCS, WHM and cPanel. • Helped clients with basic problems on Tawk.to. • Wrote a few articles on topics revolving around Web Hosting, Deployments to cPanel and stuff.

Projects

URL Shortener 🔗
• A basic solution for shortening URLs leveraging Flask and SQLAlchemy for the server, Next.js for UI, and Postgres for DB.

Utarchadhav 🔗
• Building a podcast website focusing on the creative side of the designs with NextJS and integrating API built in Typescript.
• Deployed both frontend (NextJS) and Backend (Typecript) in a Linux environment.

Saru's Archival 🔗
• Built the frontend of the whole project in NextJS and Tailwind including a user-friendly dashboard for feeding the data, integrating API built in Typescript.
• Deployed the backend for the code in a Linux environment (Linux, nvm, pm2, nginx).

Invey, Survey Platform 🔗
• Building a survey platform in NextJS with FastAPI Backend. Helping deploy FastAPI and create pipelines for CD.

nepseCLI, Python, Typer, APIs 🔗
• Built a Command Line Interface application using Python and Typer framework.
• Working on providing users with the API for all the data in the project.

Newsletter API 🔗
• Flask & SQLAlchemy Newsletter API: Built a backend for subscriber management using popular frameworks.
• Dockerized & Deployed: Packaged and ran the API efficiently with Docker, showcasing deployment skills.

Nepal Oil Corporation API, - 2023 🔗
Built a Flask API that scrapes static data from NOC official website with bs4 and curates the data and serves in REST.

Education

Kathmandu, Nepal	**NEB 12, Nobel Academy** Physics, Chemistry, Mathematics, Computer Science
